food safe coating

guaranteed safe, hygienic and colourfast

G U A R A N T E E D S A F E , H Y G I E N I C , C O L O U R F A S T

The safe, specialist finish, perfect for direct contact with food.

95% of our ribbons can be food coated with a specialist finish to prevent staining of ribbons with fats and sugars. Our ribbons are also suitable for direct contact with chocolate and confectionery products, in fact anything edible.

All ribbons are fully tested in our accredited laboratory, for colour fastness, wet and dry rubbing, absorbance of oil and water and compression against icing.

These tests are carried out to ensure ribbons are fit for purpose and to ensure there can be no transfer of colour from ribbon to cake or wicking of the ribbon from fats and sugars.

After coating and testing, ribbons can be either cut to length or converted into a bow or trimming. Our in house clean room offers the perfect controlled environment to manufacture direct food contact ribbon trims.

All testing and manufacturing procedures are fully documented and traceable and form part of our ISO9001 Accreditation.

We offer a bespoke design service to create ribbons and bows to your requirements, these will be subject to minimums and lead times dependant on design.

bespoke printing

your design, your message, your choice

We understand that everyone is unique and so to have your own branded ribbon guarantees you stand out.

Berisfords have extensive printing facilities offering 3 different methods of print to cover every conceivable request.

Our in-house team are on hand to talk you through the process. We can produce designs and artwork to your brief, and supply you with a finished sample for your approval.
