Berisfords promise to help save the planet

A proud British heritage going back over 150 years, with a commitment to the future.

From 2021 onwards we are committed to replacing all our UK ribbon manufacturing with 100% recycled yarns, for a greener more sustainable environment.

Berisfords have sourced a recycled polyester (rPET) yarn to develop a ribbon made from 100% used plastic bottles. Even our new white plastic reels not only look good, but they're made from recycled white goods and are themselves recyclable.

This is why our yarn is certified with GRS, the Global Recycled Standard and also by Oeko Tex® which is the global industry standard for textiles.

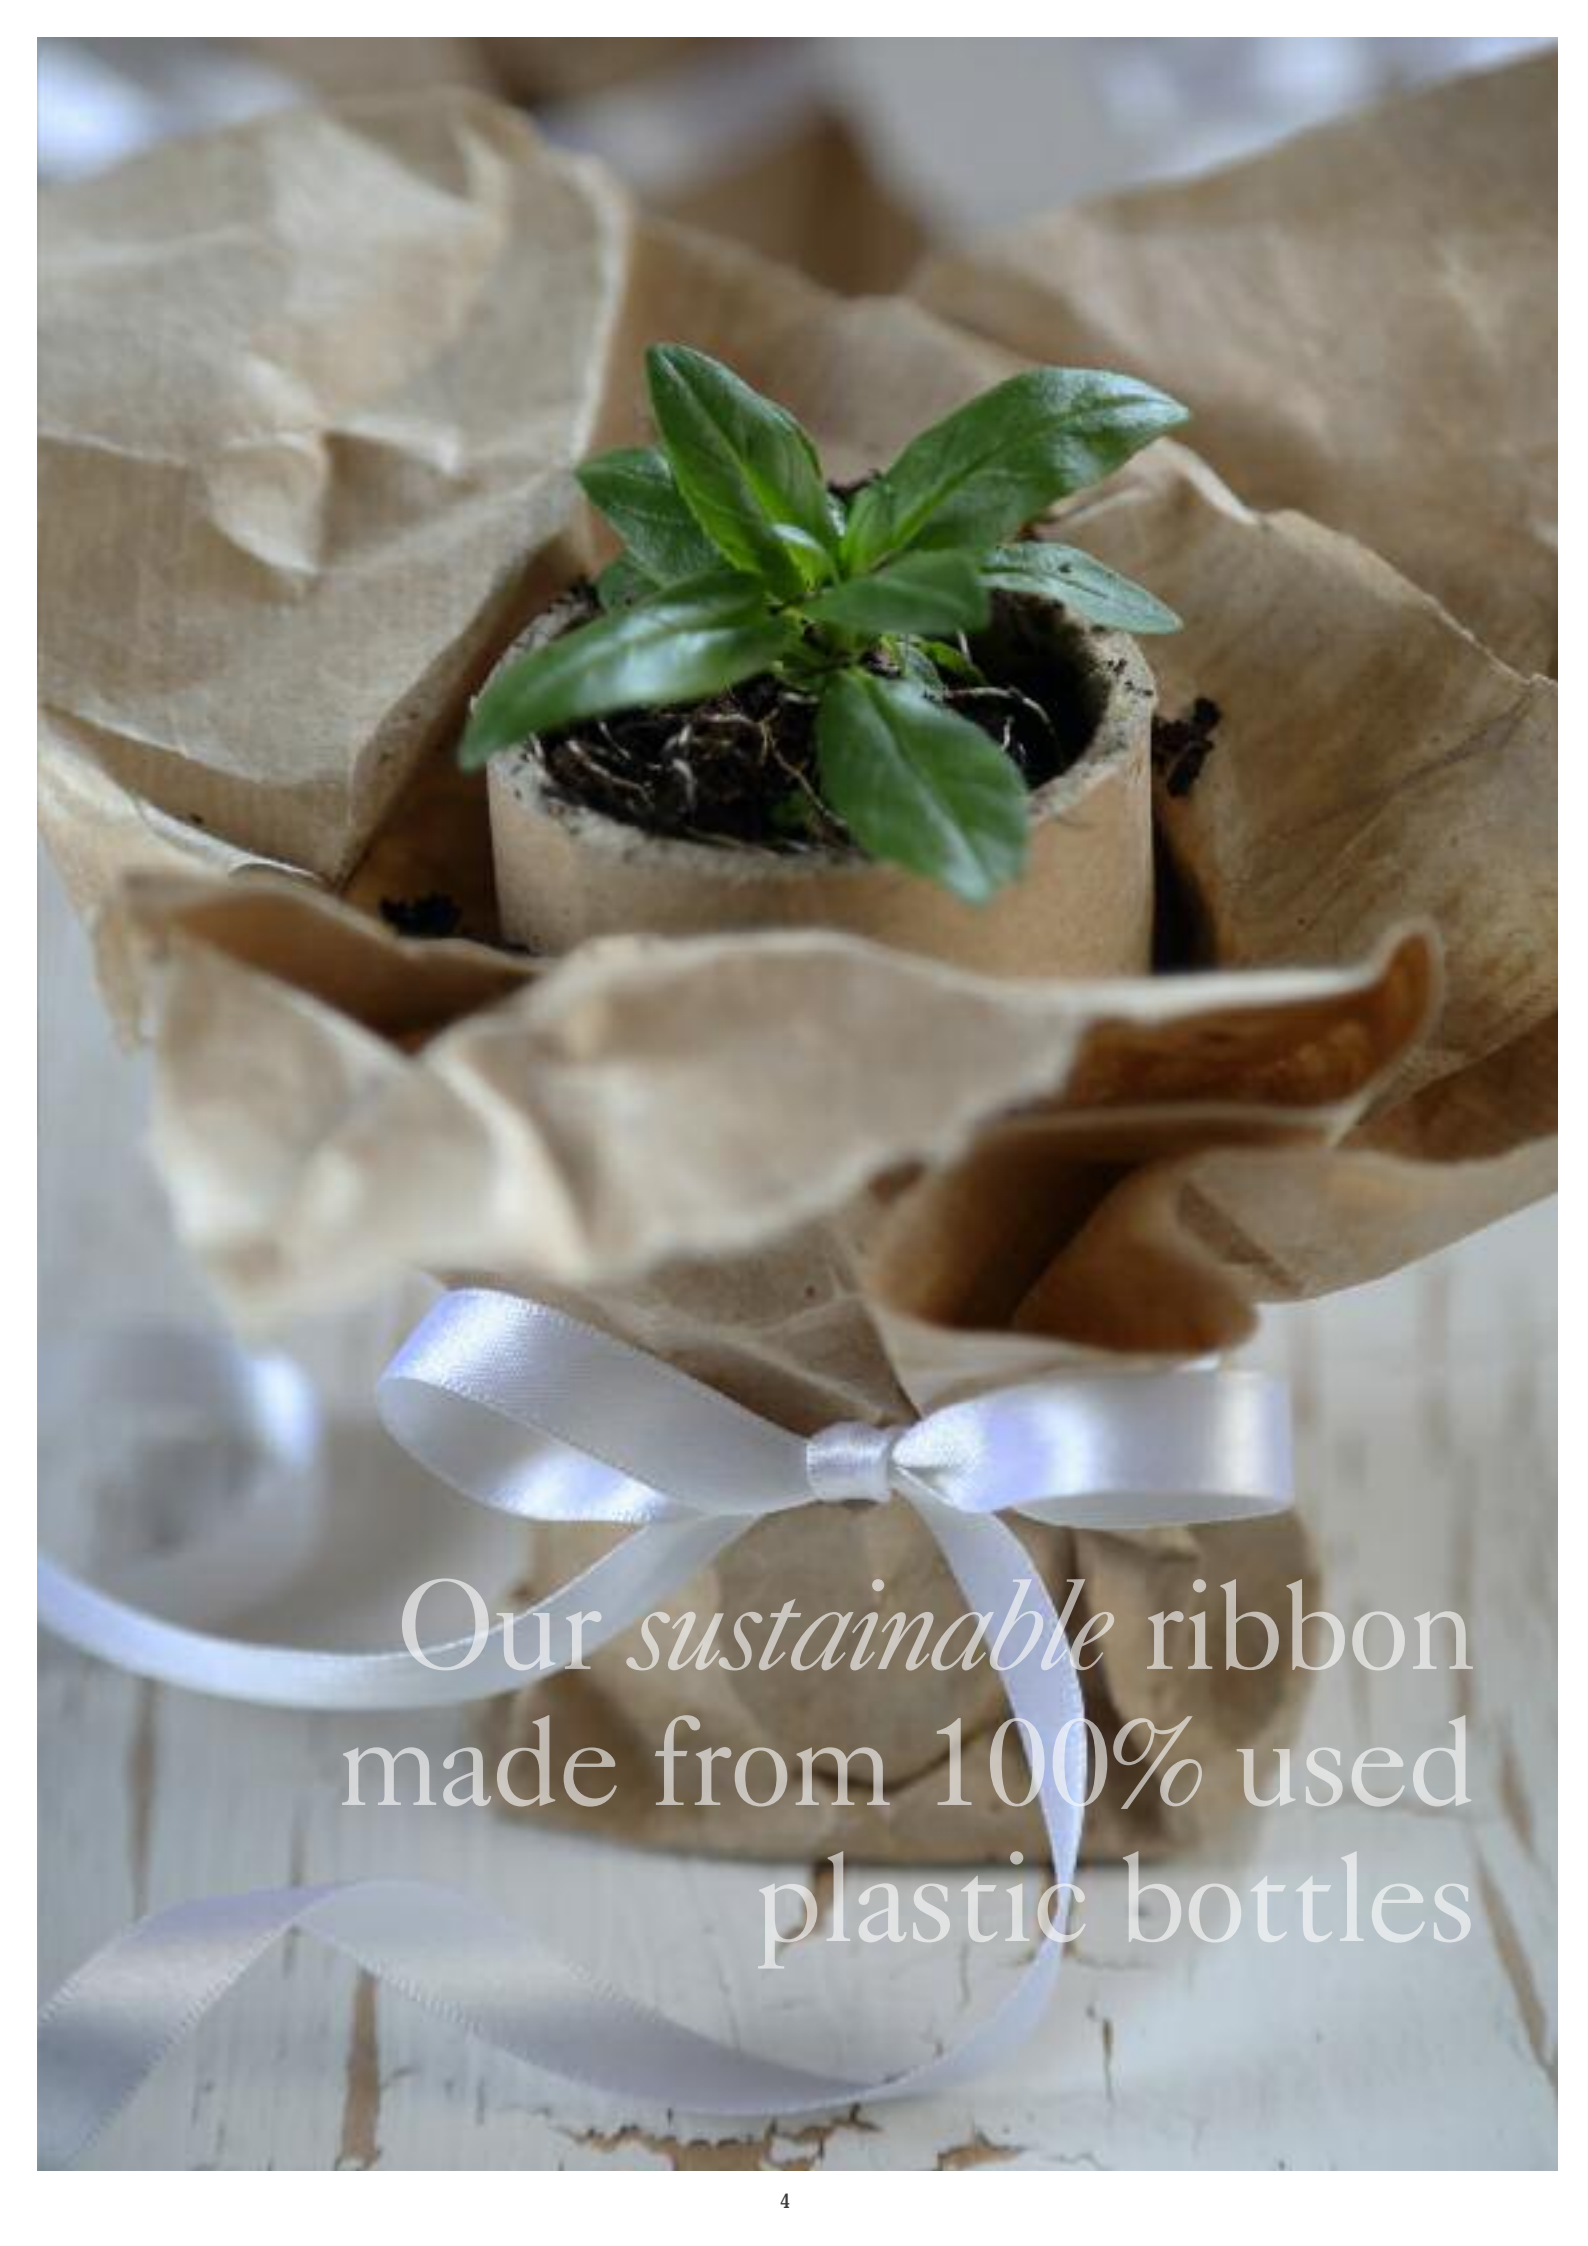

trust Berisfords ~ sustainable, ethical, honest

To see our Designer display stand 39

A close-up photograph of a small, vibrant green plant with several leaves growing out of a cylindrical, light-brown biodegradable pot. The pot is nestled within a larger, crumpled piece of brown paper. A white, glossy ribbon is tied in a bow around the base of the pot and paper. The entire arrangement sits on a light-colored, textured surface, possibly wood or stone. The lighting is soft and natural, highlighting the textures of the paper, the plant, and the ribbon.

Our *sustainable* ribbon
made from 100% used
plastic bottles

Bespoke bows, cut lengths & decorations

Innovative solutions for all your needs

bow styles

be as creative as you like

- Bespoke bow design service for unique style
- Tailor made designs to customers brief
- Applications to suit all end uses such as straps, adhesive pads, elastic and cable ties
- Packaging, Textile, Craft and Home Interiors, a bow for every market

hot & cold cutting

ends trimmed to your taste

- Ribbon is heat cut to prevent fraying
- Ribbon can be cut straight, mitred or swallow tailed
- Adhesive pads may be applied for ease of application
- Packaging, Textile, Craft and Home Interiors, ribbon lengths for every market

customised decorations

design solutions for any project

- Your choice of ribbon and application based on design brief
- Swing tags and decorative components incorporated within designs
- Specialist packaging options eg jars, cards, bags
- Component assembly
- Product sourcing

Direct Food Contact and Packaging our speciality.
Minimums apply.

The safe, specialist finish, perfect for direct contact with food

95% of our ribbons can be food coated with a specialist finish to prevent staining of ribbons with fats and sugars.

Our ribbons are also suitable for direct contact with chocolate and confectionery products, in fact anything edible.

All ribbons are fully tested in our accredited laboratory, for colour fastness, wet and dry rubbing, absorbance of oil and water and compression against icing.

These tests are carried out to ensure ribbons are fit for purpose and to ensure there can be no transfer of colour from ribbon to cake or wicking of the ribbon from fats and sugars.

After coating and testing, ribbons can be either

cut to length or converted into a bow or trimming.

Our in house clean room offers the perfect controlled environment to manufacture direct food contact ribbon trims.

All testing and manufacturing procedures are fully documented and traceable and form part of our ISO9001 Accreditation.

We offer a bespoke design service to create ribbons and bows to your requirements, these will be subject to minimums and lead times dependant on design.

bespoke printing

the icing on the cake

Nothing spells out quality more than adding your personal touch to an elegant ribbon

Berisfords have extensive printing facilities offering 4 different methods of print to cover every conceivable request.

Our in-house team are on hand to talk you through the process. We can produce designs and artwork to your brief, and supply you with a finished sample for your approval.

Hot Stamped Foil

Add shine and drama to any project. Uses a metal plate to heat transfer the foil design to the ribbon.

- Up to two print colours
- Gloss metallic gold and silver are standard, other colours on request

Screen

For simple impact, what ever colour you need. Applies ink to the ribbon through mesh screens.

- One & two print colours (light on dark)

Sublimation Transfer

Vibrant colour, intricate designs, soft handle. Transfers dye from paper to polyester ribbons.

- Multi-colour designs & photographic prints available

Rotary Letterflex

Versatile enough for the most demanding brief. Transfers ink from a photo polymer plate via anilox rollers to the ribbon.

- Up to six print colours

double sided display stand

*retail
display stand*

Article 43999

Colour 1 Ivory

maximise your sales potential

A smart double sided, free standing unit with the flexibility to stand against a wall or on the sales floor.

Available in neutral ivory to fit with any decor, there are 11 shelves on each side, with a deeper shelf at the bottom to accommodate bigger reels.

Dimensions

Height: 1676mm
Width: 500mm
Depth: 367mm

WASHING SYMBOLS EXPLAINED

The number in the tub tells you the maximum temperature you can wash this item at.

One line underneath means Synthetic programme (moderate agitation).

Can not be chlorine cleaned.

1 dot: COOL iron (110°C) (acrylic, nylon, acetate).
2 dots: WARM iron (150°C) (polyester, mix, wool).
3 dots: HOT iron (200°C) (cotton, linen).

Can be dry cleaned.

Can be tumble dried

Note: A cross through any symbol means not possible.

Tested for harmful substances.
